

GUIDE TO THE JOHN J. DALY COLLECTION

Collection Abstract:

This collection is part of a larger donation of records relating to the Port Washington Public Schools. It is comprised of 65 lantern slides from the collection of John J. Daly (?-1968), principal of the Sands Point School from 1927 to 1966. Daly first came to Port Washington from upstate New York in 1924, when his study at the New Paltz Normal School assigned him to practice teaching here at the junior high school. In 1925, Paul D. Schreiber, at that time superintendent of schools, offered Daly a full-time job. In 1927, Daly succeeded Charlotte Merriman as principal of Sands Point School, which at that time occupied a white frame building on School Street overlooking the Mill Pond (the school moved to its Rockwood Avenue location in 1929). After nearly forty years serving as the principal of Sands Point School, in 1966, he was promoted to coordinator of state and federal programs for all of Port Washington's public schools.

It is not known how John J. Daly came into possession of these lantern slides, but it is unlikely that he was the photographer, as those with dates are largely dated before Daly arrived in town. They were perhaps used in school instruction. The images show scenes of people, places, and community life in Port Washington from around the turn of the century.

Collection Title: The John J. Daly Collection

Inclusive Dates: c. 1900-1938

Size: 1 Box (1.12 l.f.)

Source: Gift of Frank Pavlak, 2013 (2013.1)
